Migration and Consolidation

Transition and Consolidate Systems with Ease – and Without Impacting Users

When it comes to migrating and consolidating systems – due to mergers and acquisitions or just a move to newer versions of the systems – it is crucial to plan every aspect of the transition to make sure your users have access to all business-critical applications and information.

Quest's migration and consolidation solutions efficiently move and restructure user accounts, data and systems without impacting users or business productivity. You can trust us to:

- Perform analysis and impact assessments prior to the migration

- Enable true coexistence during the migration

- Restructure with ease during the migration

- Accommodate even the most complex migration scenarios
